Version of the application: **Enviromental details: windows**

Reported to: viji v   **Module name: online Appoint**

Bug id	test id	Expected result	bug report
Def_FP_OA_001	FP_OA_008	the owner's name field should not accepts numerics or special characters	the owner's name field accepts numerics and special characters
Def_FP_OA_002	FP_OA_012	maximum length of characters in the name field should be fixed	maximum length of characters is not fixed
Def_FP_OA_003	FP_OA_013	minimum length of characters in the name field should be fixed	minimum length of characters in the name field is not fixed
Def_FP_OA_004	FP_OA_014	the error message should be shown for invalid inputs	the error message is not shown for invalid inputs
Def_FP_OA_005	FP_OA_019	a mobile number with more than 10-digits should not accepted	a mobile number with more than 10-digits is accepted
Def_FP_OA_006	FP_OA_020	a mobile number containing alphabetic character should not accepted	a mobile number containing alphabetic character is accepted
Def_FP_OA_007	FP_OA_021	the mobile number field should not accepts special chracters or alphabets	the mobile number field accepts special characters and alphabets
Def_FP_OA_008	FP_OA_022	the country code must be shown with the mobile number	the country code is not shown with the mobile number
Def_FP_OA_009	FP_OA_024	an error message should be display when the user enter invalid inputs	an error message is not displayed for invalid inputs
Def_FP_OA_010	FP_OA_034	an email with special characters not allowed in an email should not accept	an email with special characters not allowed in an email is accepted
Def_FP_OA_011	FP_OA_035	an error message should be display for invalid email address	error message is not displayed for invalid email address
Def_FP_OA_012	FP_OA_036	the email address field should not accepts email that contains spaces	the email address field does not accepts email that contains spaces

Def_FP_OA_013	FP_OA_039	the location field should not accepts only characters	the location field accepts numeric characters
Def_FP_OA_014	FP_OA_040	when the user enter special characters in the location field it should not accepts	when the user enter special characters in the loaction field it accepts
Def_FP_OA_015	FP_OA_045	an error message shold be shown when the user enter invalid inputs into the location field	an error message is not shown when the user enter invalid inputs into the location field
Def_FP_OA_016	FP_OA_047	the pet name field should not accepts numerics or special characters	the pet name field accepts numerics and special characters
Def_FP_OA_017	FP_OA_050	maximum length of characters in the pet name field should be fixed	maximum length of characters is not fixed
Def_FP_OA_018	FP_OA_051	minimum length of characters in the pet name field should be fixed	minimum length of characters in the name field is not fixed
Def_FP_OA_019	FP_OA_052	an error message shold be display when the user enters invalid inputs into the name field	an error message is not displayed when the user enter invalid inputs into the name field
Def_FP_OA_020	FP_OA_058	the gender field should not accepts empty field	the gender field accepts empty field
Def_FP_OA_021	FP_OA_063	the pet kind field should not accepts empty field	the pet kind field accepts empty field
Def_FP_OA_022	FP_OA_065	the breed field should not accepts numeric or special characters	the pets age field accepts numeric and special characters
Def_FP_OA_023	FP_OA_067	the breed field should not accepts empty field	the breed field accepts empty field
Def_FP_OA_024	FP_OA_068	the minimun length of characters in the breed field should be fixed	the minimum length of characters is not fixed
Def_FP_OA_025	FP_OA_069	the maximim length of characters in the breed field should be fixed	the maximum length of characters is not fixed
Def_FP_OA_026	FP_OA_070	an error message should be display for invalid input	an error message is not displayed for invalid input
Def_FP_OA_027	FP_OA_072	the pet age field should not accepts special characters or alphabets	the pet age field accepts special characters and alphabets
Def_FP_OA_028	FP_OA_074	the pet age field should not accepts negative numbers	the pet age field accepts negative numbers
Def_FP_OA_029	FP_OA_075	the maximum length of the number should be fixed	the maximum length of the number is not fixed

Def_FP_OA_030	FP_OA_076	the pet age field should not accepts decimal value	the pet age field accepts decimal value
Def_FP_OA_031	FP_OA_080	the body weight field should not accepts alphabets or special characters	the body weight fieldaccepts alphabets and special characters
Def_FP_OA_032	FP_OA_082	the body weight should not accepts negative numbers	the body weight accepts negative numbers
Def_FP_OA_033	FP_OA_088	the date field should not accepts past date	the date field accepts past date
Def_FP_OA_034	FP_OA_091	the date field should not accepts alphabets or special characters	the date field accepts alphabets and special characters
Def_FP_OA_035	FP_OA_092	a error message should be display for invalid date	error message is not displayed for invalid date
Def_FP_OA_036	FP_OA_093	the time field should not accepts alphabets or special characters	the time field accepts alphabets and special characters
Def_FP_OA_037	FP_OA_095	the time field should not accepts inavlid time	the gtime field accepts invalid time
Def_FP_OA_038	FP_OA_097	the time field should not accepts negative numbers	the time field accepts negative numbers
Def_FP_OA_039	FP_OA_098	the time field should be display an error message for invalid inputs	time field does not displays an error message for invalid inputs
Def_FP_OA_040	FP_OA_102	the note field should not accepts special characters	the note field accepts special characters
Def_FP_OA_041	FP_OA_105	the maximum length of characters should be fixed	the maximum length of characters is not fixed
Def_FP_OA_042	FP_OA_106	the symptoms note field should display error message for invalid inputs	the symptoms note field does not displays error message for invalid inputs

steps to reproduce	Screenshot/ Evidence	severity	Priority	Status
1. locate the owner's name field 2. enter the input		minior	low	new
1. locate the owner's name field 2. enter the input		minior	low	new
1. locate the owner's name field 2. enter the input		minior	low	new
1. check the error message		minior	high	new
1.locate the whatsapp number field 2. enter a mobile number with more then 10 digits		major	medium	new
1. locate the whatsapp number field 2. enter a mobile number with alphabetic character		minior	medium	new
1.locate the whatsapp number field 2. enter the input		minior	medium	new
1. locate the whatsaap number field 2. check the country code is shown or not		minior	low	new
1. check the error message		minior	high	new
1.locate the email address field 2. enter the input		minior	medium	new
1. check the message		minior	high	new
1.l ocate the email address field 2.enter the input		minior	high	new

1. locate the location field 2. enter the input	minior	medium	new
1. locate the location field 2.enter the unput	minior	medium	new
1. locate the location field 2. check the error message	minior	high	new
1. locate the pet name field 2. enter the input	minior	medium	new
1. locate the pet name field 2. enter the input	minior	medium	new
1. locate the pet name field 2.enter the input	minior	medium	new
1. locate the pet name field 2. check the error message	minior	high	new
1. empty field	minior	medium	new
1. empty field	minior	medium	new
1. locate the breed field 2. enter the input	minior	medium	new
1.locate the breed field 2. empty field	minior	medium	new
1. locate the breed field 2.enter the input	minior	low	new
1. locate the breed field 2.enter the input	minior	low	new
1. locate the breed field 2.invalid input	minior	high	new
1.locate the pet age field 2. enter the number	minior	medium	new
1.locate the pet age field 2. enter the number	minior	high	new
1.locate the pet age field 2. enter the number	minior	low	new

1.locate the pet age field 2.enter a decimal value	minior	high	new
1.locate the body weight field 2. enter the input	minior	high	new
1.locate the body weight field 2. enter a negative value	minior	high	new
1.locate the date field 2.enter a past date	minior	high	new
1. locate the date field 2. enter the input	minior	high	new
1.locate the date field 2.enter invalid input	minior	high	new
1.locate the time field 2.enter the input	minior	high	new
1.locate the time field 2.enter a invalid time	minior	high	new
1. locate the time field 2. enter the input	minior	high	new
1. locate the time field 2. enter invalid inputs	minior	high	new
1.locate the symptoms note field 2.enter the input	minior	low	new
1. locate the symptoms note field 2. enter the input	minior	low	new
1. locate the symptoms note field 2. enter invalid inpts	minior	high	new
